

## What is AICE?

The Advanced International Certificate of Education program (AICE) is an innovative and accelerated method of academic study offered solely through the Cambridge Assessment International Education, a division of the University of Cambridge in the United Kingdom-an institution consistently ranked as one of the top five academic universities in the world. AICE provides a flexible, broad-based curriculum that is offered worldwide at schools and colleges in over 161 countries. For over 170 years, the prestigious University of Cambridge has been setting worldwide curriculum standards through their examinations.

## Why should students enroll in AICE courses?

The AICE program of study at WMHS offers students one of the most demanding and rigorous college preparatory programs in the world. After completing at least one course in each of three academic areas, students have the flexibility to choose a course of study that best meets their abilities and interests. Regardless of the option chosen, enrollment in these rigorous courses will benefit WMHS students in the college application process.
